

AutoCAD test – nivo 1

Ime i prezime: _____

1. From which direction does AutoCAD start measuring angles?

- 12 o'clock
- 3 o'clock
- 6 o'clock
- 9 o'clock

2. What does WCS stand for?

- Western CAD System
- Worldwide Coordinate Sectors
- World Coordinate System
- Wrong CAD Settings

3. When drawing in 2D, what axis do you NOT work with?

- X
- Y
- Z
- WCS

4. Is 300 degrees the same as -60 degrees in a drawing?

- Yes
- No
- Not always
- Never

5. Which one of these will NOT start the Print command?

- Typing PLOT
- Typing PRINT
- Pressing Control+P
- Pressing Alt+P

6. What should you pay attention to when learning AutoCAD?

- The Command Line
- The Status Bar
- The Title Bar
- Tool Icons

7. Polar coordinates are used mostly for drawing...?

- Circles
- Arcs
- Vertical lines
- Angled lines

8. Which keystrokes will UNDO a command

- Control+U
- Alt+U
- Control+Z
- Alt+Z

9. When using the TRIM command, which do you select first?

- The cutting edges
- The object to be trimmed
- Everything
- Nothing

10. How many snap points does an object have?

- One
- Two
- Depends upon the object
- At least four

11. How many points do you need to define for the rectangle command?

- One
- Two
- Four
- None

12. How many AutoCAD objects are in a rectangle?

- None
- One
- Four
- Eight

13. If you draw a line at 270 degrees, it will point:?

- Up
- Down
- Left
- Right

14. How long will a line from 1,4 to 4,4 be?

- Four units
- Eight Units
- Can't accurately tell from those coordinates
- Three Units

15. How long will line from 1,4 to @4<5 be?

- Three units
- Four units
- Five units
- 6.4031 units

16. How many points do you need to draw a line using Absolute Coordinates?

- None
- One
- Two
- Four

17. When selecting objects, pressing 'L' will:

- Select lines only
- Select objects when you move your mouse to the left
- Select the last object created
- Select the last object you modified

18. Pressing Shift while you are selecting will?

- Allow you to draw a window
- Automatically delete the object(s)
- Remove the next selected object from the set
- Highlight the selected objects

19. Pressing 'F' when selecting objects will...

- Allow you to draw a fence
- Finish the selection set
- Limit you to five objects
- Allow you to find specific text

20. How you select the last set of object(s) you selected?

- Type 'L'
- Type 'P'
- Type 'H' to highlight them
- You can not do this

21. What is the best way of drawing a rectangle?

- Using the Line command
- Using the Polyline command
- Using the Rectangle command
- Using the Multiline command

22. To move something four units to the right, what would be the 2nd point of displacement?

- @4,0
- @4<0
- Neither 1 nor 2
- Both 1 and 2

23. How should you select objects when using the stretch command?

- With a crossing window
- Pick them one by one
- Hold the shift key while selecting
- Type 'S'

24. The origin of a drawing is at:

- The first point you select
- 0,0
- A random point in space
- 10,10

25. Objects are rotated around the

- Base point
- Bottom right of the object
- Centre of the object
- Origin

26. The fillet command creates:?

- Sharp Corners
- Round Corners
- A circle
- A boneless fish

27. A polar array creates new objects...

- In a grid pattern
- In a straight line
- In a circular pattern
- In an northern pattern

28. The distances of a chamfer are:

- Always different
- Always the same
- Sometimes different
- Never the same

29. You should use Osnaps when you dimension...

- Never
- Always
- Only on lines
- Only on arcs and circles

30. How many layers should a drawing have?

- One
- Ten
- One for each object
- As many as are needed to clearly display the objects

31. When can you change the height of your text?

- Only when you start the drawing
- Only in a special text dialog box
- When you are starting the Text command
- You can't, it is pre-set by AutoCAD

32. Scaling objects makes them...

- Bigger
- Smaller
- It only stretches them
- Both Bigger and Smaller

Testove popunite na dva načina:

1. Štampajte ih, popunite i skenirane vratite na adresu: office@e-univerzitet.com
ili
2. Pošaljite nam mail samo sa odgovorima i Vašim podacima

Rezultate testova dobićete u roku tri radna dana.

U slučaju da ste zainteresovani za odgovarajući sertifikat, dobićete podatke potrebne za naručivanje.

Zahvaljujemo na interesovanju za e-Univerzitet testovima
